### NEWMEDIA

UI/UX Design Strategist

Senior Designer

Front-end Developer

#### UI/UX Design Strategist

Worked closely with development team in an Agile/Scrum work flow to design visually-compelling, brand-consistent, responsive, and highly-usable websites and web applications for PaaS/SaaS, B2B, and B2C clients.

- Lead User Experience and User Interface designer for responsive web sites and web applications.
- Partnered with clients to create solutions that support and build brand presence and meet business requirements.
- Responsible for leading, developing and evolving the design process.
- Developed and trained junior level design talent.
- Developed and maintain tools for in browser wire-framing and design.
- Designed and built fully-interactive HTML5/CSS3 prototypes with click-throughs, used for client presentations, wire-frames, and mock-ups.
- Produced style guides and web interaction stylesheets for developers.

#### Senior Designer

Art direction, brand development and management of design team.

- Lead and developed 10 members of the design team.
- Organized weekly design critiques.
- Continually developed design process.
- Establish best practices for creative development across all touch points.

#### Front-end Developer

Developed fully functional mobile-first responsive websites based on Business Requirements using Drupal, HTML5, CSS3, and JavaScript.

- Worked in both Agile and Waterfall settings.
- Determined content structure and information architecture.
- Responsible for site-building and taking completed designs through development to site completion.
- Maintained brand standards under company guidelines.
- Browser tested front-end code to ensure cross-browser compatibility.
- Leveraged responsive frameworks such as Bootstrap and Foundation to consistently complete and deliver components on time.

2010–2013

### Variant Studios

Web Designer + Drupal

Themer

#### Web Designer + Drupal Themer

Worked with a variety of clients to create web solutions that successfully support and build brand image, presence and meet business requirements.

- Responsible for the design of impactful brand consistent web sites.
- Creatively conceived design solutions and illustrations to support and build brand presence and awareness.
- Identified and developed content and information architecture.
- Built and maintained Drupal websites using HTML5, CSS3/SASS and jQuery.
