UI/UX Design Strategist – Senior Designer – Front-end Developer

UI/UX Design Strategist

Worked closely with development team in an Agile/Scrum workflow to design visually-compelling, brand-consistent, responsive, and highly-usable websites and web applications for PaaS/SaaS, B2B, and B2C clients.

- Led User Experience and User Interface designer for responsive web sites and web applications.
- Worked directly with clients to help create solutions that support and build brand presence and meet Business Requirements.
- Responsible for leading, developing and evolving the design process.
- Developed and trained junior level design talent.
- Developed and maintain tools for in browser wire-framing and design.
- Designed and generated fully-interactive HTML prototypes and click-throughs used for client presentations, wire-frames, and mock-ups.
- Produced style guides and web interaction sheets for developers.

Senior Designer

Art direction, brand development and management of design team.

- Lead and developed the design team.
- Held and ran weekly design critiques.
- Continually developed design process.
- Establish best practices for creative development across all customer touch points.

Front-end Developer

Developed fully functional responsive websites based on Business Requirements using Drupal, HTML/HTML5, CSS3, JavaScript and JQuery.

- Worked in both Agile and Waterfall settings.
- Determine content structure and information architecture.
- Responsible for site-building and taking completed designs through development to site completion.
- Maintained brand standards under company guidelines.
- Browser tested front-end code to ensure cross-browser compatibility.
- Participated in projects in all stages of life cycle.
- Leveraged responsive frameworks to consistently complete and deliver components on time.

'10-'13
