SUMMARY

Drupal front-end developer with 10+ years building accessible, component-driven experiences across Drupal 7–11. Deep expertise in theming, Twig templating, Single Directory Components (SDC), and JavaScript-driven interactions. Proven track record delivering WCAG 2.1 compliant solutions for agency, enterprise, and government clients.

SKILLS

Drupal: 7–11 • Twig • PHP (functional knowledge) • Single Directory Components (SDC) • Theme Development • Site building • Drush • Composer

Front-End Development: HTML5 • CSS3 • SASS • JavaScript • jQuery • Accessibility (WCAG 2.1, Section 508)

Tools: Git • Figma • Lando • DDEV • CI/CD • Pantheon

Also familiar with: React • NextJS • Storybook • Tailwind

RECENT WORK

Twig Card Component Demo - Reusable component library demonstrating Twig templating patterns, SDC architecture, and accessibility best practices for Drupal theming. Includes card variations with documented usage examples.

EXPERIENCE

Front-End Developer

Aten Design Group | May 2022 - March 2026

- Built and architected Drupal themes using Single Directory Components (SDC) and Twig templating for 10+ client sites, improving maintainability and design system consistency.
- Contributed to open-source Drupal projects including Mercury Editor and Prototype Starterkit, collaborating with the Drupal community to advance reusable tooling.
- Implemented custom JavaScript/jQuery solutions for enhanced UI interactions and accessibility features aligned with WCAG 2.1 standards.
- Maintained Drupal core and contrib module updates across 10+ production sites, ensuring security and compatibility with latest releases.
- Conducted accessibility audits and remediation for 6+ sites to meet Section 508 and WCAG 2.1 compliance requirements.
- Participated in CI/CD workflows and Agile development processes as part of multidisciplinary project teams.

Front-End Developer & Web Designer

RehabCreative | May 2018 - May 2022

- Led full-cycle website development projects from initial build through deployment, prioritizing responsive design, cross-browser compatibility, and performance.
- Translated UX and UI designs into clean, browser-tested front-end code, assessing technical feasibility and maintaining brand standards throughout.
- Collaborated closely with developers and clients to gather requirements, meet project goals, and deliver new features for existing client sites.
- Built mobile-first responsive sites using HTML5, CSS3, JavaScript, Bootstrap, and Foundation.

UI/UX Design Strategist & Front-End Developer

Newmedia | May 2013 - May 2018

- Led UI/UX design and frontend development for responsive web applications in Agile workflows, delivering solutions for PaaS/SaaS, B2B, and B2C clients
- Built and maintained Drupal websites and interactive HTML5/CSS3 prototypes using JavaScript, jQuery, and responsive frameworks (Bootstrap, Foundation)
- Leveraged Git for version control and collaborated with development teams using Agile project management practices
- Developed content and information architecture strategies to improve site usability and maintainability

Web Designer & Drupal Themer

Variant Studios | May 2010 - May 2013

- Designed and developed responsive Drupal websites using HTML5, CSS3/SASS, and jQuery for diverse clients.
